FACTS and OBSERVATIONS

On Sandy and the Regions
Beyond.

The writer left home on Thrusday morning, Oct. 1, and spent the night at White House. This is a bustling place for business. Car loads of merchandise are on the tracks and freight depot crowded. The estimate is that 100 wagons a day are going and coming. I did not count. This is the terminus of railroad, although 6 or 7 miles of track are laid beyond. Much work is being done on culverts and bridges.

Reached Paintsville on Friday afternoon. Here we met J. C. Ramsey, of Mt. Sterling. He is in charge of W. U. office and two telephone lines. He was hustling. Mrs. Henry Howes was in dying condition from typhoid fever. The town has been greatly scourged by this disease during the summer and fall. Bad water is said to be the cause. We drank no water or milk while there. Spent one day there and left for

SALYERSVILLE.

Circuit Court began here Monday. Candidates of Circuit Judge, Riddell and Blakely were here and made speeches. J. K. Roberts, of Beattyville, Democratic candidate for Commonwealth Attorney, is at home sick. His opponent, Mr. Adams lives here.

We attended the Presbyterian church on Sunday morning and evening, and after adjournment in morning heard part of two sermons at Baptist church. Few court attendants were religiously inclined.

The drouth throughout the Sandy and upper Licking valleys is very severe. We think we would

be correct in saying that a big ship would go aground on these rivers. Crops of all kinds are short. Corn will be about one-half. During Sunday night rain began. Water for man and beast is scarce at Salyersville.

Mrs. Mary Prater and daughter, of Pineville, Mo., are visiting relatives in this county. She is a sister of Mrs. Jeff Prater, "mine hostess." This is her first visit for 17 years. A large attendance is expected here to day.

On Monday of last week the old Gardner homestead, the property of Mrs. Nancy J., widow of Joe Gardner, was destroyed by fire. The residence was occupied by her married son John. He lost nearly everything, although there were at dinner seven men when the fire was discovered. There was no insurance.

The writer stayed here until Thursday morning. Light rain continued until Wednesday night, when a hard rain fell. The drouth is ended, and the streams are again running. We heard that some people can now wash their faces. On Wednesday Mrs. James Witten, of Oil Springs, fell and broke her hip. Drs. F. M. Witten, of Oil Springs, R. C. Adams, M. C. Kash, of Salyersville, are the Pension examiners. W. G. Smith, of Winchester, and C. B. Rose, of Hazel Green agents for State Mutual Life Insurance Company, of Massachusetts, were here writing policies.

Two indictments for murder were returned before we left, against Brown for killing Arnett, and against Montgomery for killing Fletcher.

From West Liberty we met A. N. Cisco, Wallace McGuire, F. E. Fogg and wife.

Indications were favorable for court to adjourn on Friday. We

could see enough to know that there is urgent need for the suppression of the liquor traffic in Magoffin county. We heard it said that a wholesale house in Salyersville is the promoter of "blind tigers" in that county.

The writer preached at the Presbyterian church on Monday, Tuesday and Wednesday evenings to small audiences.

We were guest at the Prater House. This hotel is always well patronized. The table is bountifully supplied with a great variety of substantial and delicacies. We counted eight kinds of sweets. The rate is \$1 per day. Jeff Prater and wife will see that their guests are well fed. Mr. Prater left on Thursday morning for the military encampment at West Point Ky. On same day the writer left on horse back and came to Cannel City and took train for Winchester where he spent the night. We were at home on Friday morning, after an absence of nine days. B. W. TAYLOR.

Women of Mayfield Enlist Business Men in Fight Against Whisky-Selling.

The citizens of Mayfield have not been so worked up over the whisky question in years. The courts have made it almost impossible for whisky and beer and other intoxicants to be sold there, but the Paducah Distillery Company, through its agent, procured a license under an ordinance which was passed several years ago, and opened its business on the east side of the public square.

Monday night, September 28, the ladies of the town, under the leadership of Mrs. J. H. Roberts, wife of the Methodist minister of this place, called in a body on the City Council with a lengthy petition and asked that the license be revoked, and were told that it could not be done. They appointed various committees, and one of these called on the representatives of the company and asked him to close his house and leave the town, telling him that they would repay his license, and have his rent remitted, and also pay the freight on all his goods back to Paducah. He informed them that he merely intended to conduct a strictly wholesale house. Another committee waited on all the business men and asked that they attend a mass-meeting at the Courthouse. The Hon. W. H. Hester, Commonwealth's Attorney, was chosen Chairman. Speeches were made and a committee was appointed to wait on the wholesale representative.

The boll weevil is reliably reported to be at Alexandria, Louisiana. This is in the heart of the Louisiana cotton growing district. It is also in the fields near New Orleans, and will almost certainly extend its ravages to other sections in time.

THE OLD RELIABLE

Absolutely Pure
THERE IS NO SUBSTITUTE

The Way to Raise a Good Garden.

First, in the late fall manure your garden with good rich manure of any kind. Stable manure is best. Second, turn the land right away. Be sure to break well and as deep as you can, and turn well.

Third, in the spring time disk your ground as thoroughly as possible close and deep.

Fourth, run a smoothing harrow over it, and then a drag to get the surface smooth, and even.

Fifth, mark off your rows with a hand garden plow and plant in furrows. Never plant in ridges—ridge gardening is a thing of the past. Sixth, do not put the mule and horse plow in the garden, but cultivate with the hand garden plow. Keep the land well cultivated with the plow and the result will be satisfactory. You will have to use the hoe to have a perfect clean garden. It is pleasant pastime to use the hand plow for your ground is loose and works well.

Seventh, when you manure and break your garden in the fall of the year, the earth takes up all the elements of the manure that is necessary for a good garden, the winter freezing puts the ground in fine condition for the vegetable roots to go down deep. If my fellow farmers would try the above plan I think they would be pleased with the result. Dr. Clifton Fowler, Stanford, Ky.—The Inland Farmer.

Robs Museum of a Bigamist.

Harold C. Mills, the man of six wives, who is in the county jail awaiting sentence to the penitentiary, will not deliver a lecture on "How to win a Woman" from the stage of a dime museum. Judge Brentano refused to admit the bigamist to bonds yesterday, and incidentally rebuked the lawyer for the museum who applied for Mill's release.

"I will be a party to no such disgraceful scheme," said the Judge. A bigamist who cold-bloodedly has broken women's hearts deserves to be consigned to oblivion behind prison walls rather than paraded on stage."

The museum manager expected to clear \$25,000 by exhibiting Mills for a week.—Chicago Record-Herald.

REASONS WHY

Citizens Should Vote against
Republican State Ticket.Long List of Lawless Acts Under
Taylor and Bradley.

Numerous reasons can be given why voters should not cast their ballots for Col. Belknap in the coming election. The comparison of the administration of Governor Beckham with the administration of his two predecessors, W. S. Taylor and W. O. Bradley, show plainly why the people of the State should prefer Democratic rule rather than government by the Republicans.

Among the reasons why citizens should vote against Col. Belknap and the Republican State ticket are the following: Kentucky stolen from Bryan in 1896.

Bradley's Administration extravagant and corrupt, with scandals in public institutions.

The use of the military in Louisville, and of this ballots in the mountains—the purpose of both being the defeat of the popular will and the debauching of the ballot box.

The calling out of the military under Bradley to overawe the Legislature and prevent the election of a United States Senator; and by Taylor to destroy the Legislature and prevent the election of a Governor.

The dispersal of the Legislature at the point of the bayonet, and its chasing through the streets of the State capital by an armed soldiery.

The defiance of the courts by Taylor and his overthrow of the great writ of habeas corpus.

The thousands of desperadoes carried to Frankfort in the disguise of soldiers.

The threats and plots of assassinating the Supreme Court, and the flight of that tribunal from Frankfort to escape death.

The conspiracy to kill off enough members of the Legislature to give the Republicans a majority.

The bloody assassination of Governor Goebel. The pardon of the accused assassins of Governor Goebel by Taylor.

The flight of Taylor and Finley to Indiana after their indictment for the assassination of Governor Goebel.

The long and desperate fight made by Powers and Howard to escape the just consequences of the crime for which they have been indicted, and twice convicted—a fight made possible only by the voluntary financial contributions of Republicans all over the State.

The Rice Association of America has voted to raise \$20,000 for the purpose of establishing a kitchen at the St. Louis World's fair with a view to extending the market for rice.

CONSTITUTIONAL AMENDMENT
To Be Voted On at the November Election.

CHAPTER 50.
An act to provide for an amendment to Section 161 of the Constitution of Kentucky.

"The General Assembly may, by general laws only, authorize cities, OR TOWNS OR ANY CLASSES to provide for taxation for municipal purposes, on personal property, tangible and intangible, based on income, bonuses or franchises, in lieu of an ad valorem tax thereon;
"Provided, cities of the first class shall not be authorized to omit the imposition of an ad valorem tax on such property of any steam railroad, street railway, ferry, bridge, gas, water, heating, telephone, telegraph, electric light or electric power company."

Belknap is going about asking white people to vote for him even to the old Confederates, and that, too, when it can be proven that he voted for a negro, and not a very respectable one at that, when he could have voted for an old Confederate soldier. The negro that respects himself will not vote for him and the Confederate soldier that would is without respect or self-protection.

BE CALM.

Our friend, Major Wood, who has done more to keep the Republican party in Kentucky alive than probably any other man in it, and who has spent more money and time for the party than very many men of his day, is very much disturbed for fear his party would be counted out if elected, and in public in a speech says that if there are there will be "pistols and coffee for two." The Major need not worry, for the Democratic majority will be so great that a count will not be necessary to determine the successful candidates. There will be no bloodshed, no pardon for the murderers of Governor Goebel or any of the Breckinridge assassins.

IGNORANT OR SCOUNDREL.

Says the Brooklyn Eagle: "Goebel, the Kentucky thug, is to have a statue. It has been provided by public subscription. Will Kentucky explain what all this is?"

It were better that the Brooklyn Eagle explain what ails it. William Goebel died Governor of Kentucky. He was a young man; a young man of poor German parentage; a young man of exemplary habits, clean hands and decorous life. For ten years he was a power in the Legislature—no hint of corruption was ever lodged against him. It was universally admitted by the Lobby and by the Public that he could neither be bought nor bullied. He had the misfortune in a hand-to-hand street duel to slay his adversary, who was trying to slay him; but he was as unlike a "thug" as, let us say, the Editor of the Brooklyn Eagle, who ought to be scandalized by such a misuse of his columns and abuse of his authority, and who, if he does not chastise the author and vindicate the decency of his paper, will stand disgraced by it.—Courier-Journal.

It is deplorable how many unwarrented statements these Northern and Easterners make about our southern men. The man who knows as little as the Brooklyn Eagle editor should be retired and if maliciousness was back of his writing then he is to be pitied.

HARD HIT.

"Fourteen culprits were punished at the Delaware whipping post last week, and not a State politician in the whole number."—St. Louis Globe-Democrat.

Too true. Under the Roosevelt administration the Delaware politicians who might be punished at the whipping post are rewarded at the pie counter.—Courier-Journal.

And from evidence from the Franklin criminal docket, down here Republicans tell things on themselves that would induce the good people to believe if the whipping post law had been in effect in Kentucky and enforced, much expense, worry and disgrace could have been averted.

Beef worth 8c gross last year is bringing 4 1/2 to 5c this year. The trusts control the beef and the Republican party permits them to go un molested. Which is the worse enemy to the people, the trust that ties their hands and takes all they have or the party that permits it? Answer this question at the polls in November.

IT'S THIS WAY.

It matters not how bad a negro wanted to be on the Republican ticket with Belknap, he was told to stand back; this was no poor white trash ticket for him to associate with. He could vote but he would not be allowed to hold office.

Ready to Vote.

On Tuesday of last week the registration was as follows:

HON. H. B. KINSOLVING.

Hon. H. B. Kinsolving met seven appointments last week in Eastern Kentucky at Sandy Hook, West Liberty, Cannel City, Hazel Green, Campton, Stanton and Frenchburg. The report has reached us that 2450 people met him at these points, that Democrats are enthusiastic in Eastern Kentucky, and that a full vote will be out in November. At Campton a staunch Republican by the name of McCoy, who had a studied speech dealing in the glittering descriptions was persuaded to ask Mr. Kinsolving for a joint discussion. This, the young man got it, and to his great discomfort his speech did not fit. To see this young hero, and his speech after it had been dissected, the bare statements had been exposed to the glaring light of records indeed appeared cruel. The young man now pondering may know better than to go up against a buzz saw again.

The Campaign Committee propose sending Mr. Kinsolving to Louisville and other points where hard fights are being made.

Republicans Want a Candidate.

Mr. T. W. Rose, of the county of Rowan, has filed before the Montgomery county clerk and also before the county clerks of the counties of Rowan, Bath and Menefee, the counties composing the 91 Circuit Court district, a petition with more than four hundred petitioners asking that his name be placed under the Republican device as a candidate for Circuit Judge. The county clerk of Montgomery is of the opinion the petition is illegal for the reason that it should have been filed thirty days before the regular election, and the further reason that it should have been filed before the secretary of State and not before the County Clerks. Rose threatens a suit in the event the name is not permitted to go on the ballots in these counties.

A similar petition is being circulated by Judge James E. Clark, of the same county, who wants to go under the same device for the same office. The clerk will refuse to order Judge Clark's name on the ticket for the same reason.

Everybody knows it is almost impossible to get shoes, these days, made from leather tanned after the old fashioned way. Yet there are some good shoes. We hunted the world over—we found every day shoes and Sunday shoes, in all styles for men and boys, plain calf, box calf, velour calf, kids, patent kids, patent colts, patent calf, high top, regular top, low cuts, that are still being made out of honest material. We thought it best to handle such goods at a small margin of profit rather than those with larger profit and less quality. We are happy to know our efforts have been appreciated. Our shoe department has more than doubled. We thank you, and shall still keep the efforts on our. Guthrie Clothing Co's is the place for the best and latest in footwear for man or boy.

Hon. H. B. Kinsolving, of Mt. Sterling, was greeted with a good audience here yesterday, and all who heard his speech agree that it was a masterly effort in behalf of Democracy. The slogan, "Rally to Ridgell and Roberts," is working effectively all along the line, and speeches like that made yesterday are calculated to enthrone the boys to greater energy. Let the good work go on, and bear in mind that less than a month remains in which to muster every Democrat. See that it is done.—Hazel Green Herald, October 8.

Corruption Fund Grows.

Alleged Murderer Will be Protected Longer and is now Aiding Belknap and Hunter.

The details of the conference recently held in Indianapolis have just become known and it brings to light a startling condition of affairs, revealing how recklessly the Republicans are bargaining in order to steal the vote of the Commonwealth and give it to Belknap and the Republican State ticket. Last week John W. Yerkes, Commissioner of Internal Revenue, slipped into Indianapolis from Washington and was met there by Senator Fairbanks, of Indiana, the fugitive, W. S. Taylor, Dr. W. Godfrey Hunter, Chairman of the Republican State Campaign Committee; J. H. Newman, the figure head chairman of the Committee; and Collector, E. T. Franks, of Owensboro. The results of that conference are numerous.

In the first place, fugitive Taylor, who has always been Dr. Hunter's closest friend, agreed to write to his friends in the mountains asking them to support Hunter for the nomination for Congress in that District.

In the second place, in return for a promise of Kentucky's support for anything he may want, Senator Fairbanks agreed to see that Taylor was protected in Indiana, and it is said that Senator Fairbanks further promised to see that a corruption fund was raised among the Indiana Republicans to be sent to Kentucky just before the coming election. The Republican campaign committee has a larger corruption fund this year than they have ever had in any previous election. Consequently when Mr. Fairbank's contribution is received from Indiana, the sum will have grown to enormous proportions. It is the plan of the Republicans to flood the State with this money during the last days of the campaign and to use it in an endeavor to buy the negro votes and to corrupt election officers.

Mr. Yerkes was more responsible for the nomination of Mr. Belknap than any other man, and Dr. Hunter is now managing Mr. Belknap's campaign, therefore even the presence of Mr. Yerkes and Dr. Hunter at a conference with fugitive Taylor, is sufficient for all thinking persons to see clearly that the Republican leaders of Kentucky, including the nominee for Governor and the patron saint, Yerkes, still endorse Taylor, Powers, and all the other men charged with the murder of Wm. Goebel. No one doubts that Taylor is lending his assistance to the Kentucky Republicans now, because he knows he will be benefited by the overthrow of Democratic Government in Kentucky.

It is also preposterous to see that Taylor still has sufficient influence among any set of people in Kentucky to be able to address letters to them to secure their support of any candidate.

In their presence at Indianapolis Mr. Yerkes and Mr. Franks are encouraging Internal Revenue employees throughout the State to take an active interest in politics which is in direct violation of the Federal Statutes.

The conference at Indianapolis brought to light any number of reasons why thinking persons should cast their votes against the Republican party which allows such men as Taylor and Hunter to control and direct its affairs.

Begin With Thoroughbred Chickens.

It has been proven over and over again that it is profitable to keep live stock on the farm.

If one would preserve the fertility of his farm he must grow live stock. But why be content to grow scrub stock.

To read the glowing and thrilling accounts of the Durhams, Herefords, Jerseys, etc., gets a fellow on "mettles." He would buy if he could, but you take the average one horse farm, (and that is the class I wish to address just now) and offer him a bargain in any of these new breeds, and he will tell you frankly he can't raise the money, and he can't. He is willing to give up the scrub; he really desires the improved breeds; he longs for the blooded stock of which he has heard and read so much. Well what is he to do? Give up? No! A thousand times no! He can't pay \$25, \$50 or \$100 for a registered bull of some of the great breeds, but he can pay \$1. for a setting of eggs, or \$3 for a pair of chickens of some of the best breeds, such as the Plymouth Rock, or Brown Leghorn. They are just as far ahead of the scrub chickens, as the Durhams, Jerseys, etc., are ahead of the scrub cattle of the country, and are just as sure money-makers, with larger profits. If he will care for the thoroughbred poultry and will carefully save the profit they yield over the scrub, he can soon be able to buy a pair or trio of registered cattle.

Any farmer in the South can keep thoroughbred poultry, and if kept and cared for will go a long way towards lifting the mortgage, or if there is no mortgage to lift, then they will furnish the means to improve the farm, beautify the home, render farm life more pleasant, and will give us a better appreciation of the beautiful.

There is more money in poultry, than in anything in reach of the average farmer to the amount of capital and labor invested.

The old and infirm can engage in the poultry business; the boys and girls delight in it, and the robust man or woman in the prime of life can find in poultry culture, an ample field in which to expend their energy and business ability. I know one family that sold over three hundred dollars worth of chickens and eggs the first half of this year; and they now have on hand twice as much stock as they started in with. By all means keep thoroughbred poultry, if you are not satisfied to stay in the poultry business, make it a stepping stone to something higher, if there is anything above it for you, but let me repeat: raise more poultry—thoroughbred poultry.

The annual report of Pension Commissioner Ware places total number of pensioners now on the rolls at 996,545, of which 725,350 are soldiers and 271,195 widows and dependents. The average annual value of each pension is \$193. Cost of system per capita is \$1.72, against \$2.24 in 1893. In ten years more the burden will cease to be noted says the Commissioner. The Spanish pension roll reaches \$1,765,310. In the past year 100,000 cases have been added to the roll.

Where Blue Grass Reigns.

By SOLON L. MOORE.

(The American Farmer.)

O, the old Kentucky Blue Grass, With its velvet sward of green; How like an undulating sea, Stretches its waves of purity serene. 'Tis sweeter to the living herds, Which browse upon the hills, And it satisfies the hunger Of flocks by shady rills. Its tender arms enfold the lark And guard her helpless young, As soaring swiftly overhead, Her plaintive notes are sung. In merry glees the children romp Upon the blue grass lawn, While playful peep from Blue Grass nocks, Near brooks where gold fish spawn. From hill-top, woods and glades, While flocks from their regal crowns From Blue Grass choicest blades, When irrigation wends her way And Blue Grass seed is sown, Then gleaming sands and arid lands Shall never more be known. How glad the day when Blue Grass plains Shall cover every shore. When verdant fields shall greet the eye And cheer the laborer's toil. O, then will come that blessed time When the green shall displace the brown, When desert lands and burning wastes Shall blossom as the rose.

Claims He Can Make Diamonds.

T. Moissan, the eminent chemist who claims to have made artificial diamonds, has received a challenge from Charles Combes, a nephew of Prof. Frédel, of the Sorbonne, to test the reality of the alleged discovery. He will deposit \$500 as a wager that Moissan fails to produce diamonds in the presence of a committee of competent persons. Moissan, who has certainly produced small stones in an electric oven, is expected by his scientific friends to cover the stake.

Prof. Booker T. Washington, of the Tuskegee Institute, has gone to Europe, and it is reported that he has projected a wholesale colonization of the African Sudan by American negroes, for the purpose of raising cotton to supply the European market. President Roosevelt is said to favor this plan.

BONE FOOD

Soft and crooked bones mean bad feeding. Call the disease rickets if you want to. The growing child must eat the right food for growth. Bones must have bone food, blood must have blood food and so on through the list.

Scott's Emulsion is the right treatment for soft bones in children. Little doses every day give the stiffness and shape that healthy bones should have. Bow legs become straighter, loose joints grow stronger and firmness comes to the soft heads.

Wrong food caused the trouble. Right food will cure it. In thousands of cases Scott's Emulsion has proven to be the right food for soft bones in childhood.

Separation of Races.

Bishop Turner of the African Methodist church favors a separation of the races. In a recent address delivered at a mass-meeting of negroes in Atlanta, the Bishop urged that opportunities should be offered to negroes to settle in Africa by a reduction of rates on steamship lines, stating, "This nation or its aggregated people will have to open a highway to Africa for the discontented black man, or the negro question will founder this government." He stated that by separation he did not mean that every one should go or must go, but that there should be an opportunity granted for the departure of "such black men and women as are self-reliant and have those manhood aspirations that God planted in them as degrading laws will intensify."

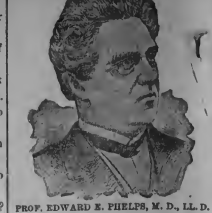

A boon to travelers. Dr. Fowler's Extract of Wild Strawberry. Cures dysentery, diarrhea, seasickness, nausea. Pleasant to take. Acts promptly. 12 4c

In his crop report issued since the frosts of September 15, 16 and 17, Statistician Snow States that a fair estimate of the acreage affected by the freezing temperature would be 20,000,000. Granting then, he says, that at Sept. 1, the figures on condition indicated a yield of 2,150,000,000 bushels the crop to be gathered would still amount to 2,000,000,000 bushels. The quality of such a crop, he adds, would be poor with a heavy percentage of soft corn. The statistician asks that it be remembered that when frosts hurt corn as late as the middle of September and soft corn though unfitted for general use "it does not mean a wiping out of the corn, but a lowering of matured grain."

A Wonderful Strawberry Crop.

For the month of September George A. Collett has sold eighteen gallons of berries to the local dealers. Mr. Collett has an elegant patch at his garden farm near the city, and they have been bearing since early in June. The strawberry crop is supposed to have given out four months ago, but still Mr. Collett brings berries to town for sale. The strawberry is, of course, not as large as those raised in the regular season, but they have a splendid flavor and are perfectly sound.—Owensboro Item.

Pension Ebb is Not in Sight.

Material reductions in pension payments may not be expected for at least five years, says Major Thomas D. Yeager, private secretary to Commissioner Ware. "Back pensions," he added, "make up what is lost by deaths. The Commissioner estimates that there are at present 900,000 Union soldiers who have not applied for pensions, but these men are rapidly making applications, and it is estimated that at the end of five years the number will have been reduced to 60,000, and that at the end of ten years it will cease to be an appreciable factor."

The end of the decade should see a rapid decrease in total payments unless new legislation is enacted. The Grand Army of the Republic has already adopted resolutions calling for an extension of the pension system, and if Congress takes favorable action it will be hard to tell when the total amount for Civil War pensions will decline to any important extent."—Washington Telegram to the New York World.

Fit and Style!

There are some things which can't be improved. One of these things is the "QUEEN QUALITY" Shoe for women. You can make it more elaborate, you can decorate it, embellish it, use costly materials and all that. But for \$100 a pair

You Cannot Make a Better Shoe

than "QUEEN QUALITY," having regard solely to the two great essentials of FIT and STYLE. This means that mechanically thousand women choose it instantly above all other shoes would seem to indicate that it is attractive. Why don't you go as far as to try on a pair the next time you go to the store? It costs nothing to see them fit your feet.

Longest Tunnel in the World

The longest tunnel in the world will be the Simpson tunnel, in the Alps. Its length, when finished, will be fourteen miles, each one of which will average a cost of nearly one million dollars. The tunnel is now about two-thirds finished and the worst difficulties have been met and overcome. The greatest of these was the ever increasing heat in the tunnel, it being stated that at the tunnelhead the temperature reached 136 degrees Fahrenheit, while outside thermometers were registering "86 degrees of frost."

THE BUSY BEE CASH STORE

Was never, even in its zenith, more resplendent with beautiful merchandise for the Fall business. Every department is overflowing with choice stuff. The beauty and elegance of which surpasses anything ever seen in this city, and many large stores in the big cities will fall short when comparing stocks with this splendid array of attractive merchandise.

→ EVERY CORNER OF THE ORIENT ←

Has been ransacked to make this store different from any other, and never has it been so beautiful, so full of things you want. With the cash in one hand and a knowledge of our business in the other, we visited all of the great Dry Goods centers of the East, and now we will be proud to welcome you to come and see what we have accomplished.

"ACCOMPLISHED AT OUR STORE FOR YOU."

Not only do we offer you bargains in every department that are so ridiculously low in price as to really astonish you, but we are also showing in these departments styles that are up-to-date, qualities that are unquestionable and patterns that are owned and controlled exclusively by us. We have been doing some masterful buying for you in every department and now all that is newest and best await your inspection and approval.

DRESS GOODS.

We are exceptionally strong in this department. Our counters are heaped up with stocks of woven dainties for this fall's wear that are as fresh as apple blossoms. Our Big Daylight Dress Goods section is filled to overflowing with recent importations with all the newest and best things obtainable in fall dress fabrics, including the swellest productions of the world's best weavers. A really wonderful collection of choice Dress Stuffs, and the values are unmatched and unmatchable in this or any other city.

WASH GOODS.

In this, one of the most beautiful and attractive departments in our Great Store, you will be shown the prettiest of new Fall Waistings, Mercerized Oxfords, Mercerized Novelities in plaids, French dots, the prettiest that ever graced a dry goods store in our city. These goods are the thing this season. We are showing our enormous stock of Percales, Gingham, Chevrons, new weaves for fall Shirt Waist Suits, Oxfords in endless varieties, all the new patterns in prints, outing cloths, canton flannel, fleeced back wrapper goods and waistings; in fact you can find everything you want in this department. Goods all new and fresh, no old carried over stuff. Buy the up-to-date novelties in wash stuffs. Don't be misled by other offerings. Get our cash prices on all wash goods. We are selling good wide Percales at 6c per yard; good Bleached Cotton at 5c per yard; Check Cotton, wide and good quality for shirts and drawers, at 5c per yard; best Apron Gingham at 5c per yard; good calicoes all styles 3 1/2c per yard. We are showing an enormous lot of these goods to select from. "Come and see them!"

LINEN DEPARTMENT.

Judge a housewife by the linen in her house and "judge a dry goods store by its linen stock." Oe welcome this kind of judgement. We have carefully studied the linen business and we have carefully studied the linen market at home and abroad. We make the statement advisedly, that no such assortment of linens and no such values in linens can be found in any other store within a radius of 100 miles. We are showing honest, trustworthy linens that will wash and wear better than any you have ever had and the secret of their cheapness is that we tripple the sales on them by sharing the profits equally with you. This is linen evidence that speaks for itself. Get our cash prices on linen of all kinds.

NOTIONS.

All the little notions that one needs are to be had here, and they are always cheaper than you can buy elsewhere. "No imitations or seconds" get standing room here. Don't scorn the little things, they count vitally in the "scheme of life." A drop of rain is a "little thing" but if it falls into the sea and is caught in an open shell it may form a pearl. The cents we save a family on the myriad articles in our notion department that are daily needed, will amount to many hundred dollars in the years that pass. You can find in this department: Pins 1c paper; Needles 1c paper; Hairpins 1c a paper; white and black Tape, any width, 1c a ball; Buttons 1c per dozen; Thimbles 1c each; Safety Pins 2c dozen; Gum webbing from 3c to 25c per yard; Children's Handkerchiefs 1c each; Ladies' all-Linen Hemstitched Handkerchiefs 5c each. Have a look at our line of handkerchiefs for both ladies' and gentlemen. We consider our handkerchief stock one of the crowning efforts of our store. All the new Initial Handkerchiefs, bleached and unbleached, all the new Swiss embroidered novelties, everything new in handkerchiefs is to be found in this stock. "Have a Look."

Blankets and Comforts—They are piled mountain high on our tables. We are selling good Comforts at 49c, 59c, 69c, 75c, 98c. Genuine Eiderdown Comforts at lowest price you ever bought them at before. Blankets at 49c, 59c pair, nice enough for any bed; all wool at \$2.98, worth \$5.00 pair. Get your blankets now and save money.

If you need a Trunk, Suit Case or Traveling Bag of any description, you can get it here. We carry a full line of Steamer Trunks. Our Low Cash Prices are always a guarantee that they are good and cheap.

Gloves—If you fear temptation keep away from our Glove Counter. We have a Kid Glove that would tempt a miser. With some a dollar glove is simply a glove. For a Dollar one means the Best

HOSIERY.

Ladies' Black and Colored Hosiery at 5c; Children's ribbed hose, all sizes, 5c; Children's double-knee ribbed hose 10c; We are showing the best school hose for children ever shown in this city. Our Hosiery Department is right on deck in this line and is equipped with the best, strongest and most durable hose for little folks that the market affords. Our Ladies' Fleeced Lined Hosiery from 10c to 25c pair are the talk of the town. Our fine Lisle Thread and all-Silk Stocking are strictly up-to-date; The patterns are the prettiest. Call and see them.

RIBBONS.

We, knowing that ribbons would be exceptionally good this season, have purchased an unusually large stock, and at prices very low. You can find anykind of ribbons you want in this stock and save money on every piece you purchase.

CORSETS.

Corsets are a delusion and a snare; we found that out long ago and acted accordingly. Our enviable corset patronage has been built up by keeping none but the best. Your favorite corset is here, if not we will get it for you. If our corsets are not in every way satisfactory, we want to know it, as with everything in our store, if not right we will make it right. We want your patronage and when we get it we will use every just effort to keep it. Try one of our American Lady Thomson Glove Fitting and J. & B. Corsets. They are made in all the new styles, and fit better, wear better and are more comfortable than any other Corset. Get prices on different styles.

FURNISHINGS.

We are selling Men's Sox at 5c a pair; extra value black and tan sox 10c a pair. Men's Suspenders 10c a pair; boys' suspenders 5c pair; Men's work shirts 24c each, boys' work shirts 19 and 24c each. Our line of fine percale shirts for men, "The Famous Brand," are the best ever shown at the price, 49c each, worth \$1. Don't fail to see our men's and boys' Flannel Undershirts, extra wide and long, at 49c each. Best for the money every shown and worth double the price.

THE WAGE WORKER'S DOLLAR

Often represents hours of arduous toil. When that dollar is spent it should command its fullest purchasing power. To give it that power is one of the vital principles of our business. Our public knows this; they appreciate the efforts which our store is constantly making to give them a bigger dollar's worth than they can get elsewhere. The consequence is that our store is always crowded with throngs of eager buyers, who are taking advantage of the opportunities we have presented them. "Get in the band wagon and follow the crowd," and be one of the busy throng who are daily buying the "big dollars worth" from the Busy Bee Cash Store.

UNDERWEAR.

To say that we are offering bargains in this department that are superior to anything to be had in this market, would be putting it mild if we stopped right there, but we ask you to get prices in this department, and to see the Ladies' Fleeced Lined Vests and Pants in Ecru bleach that we are selling at 19c, worth 35c. Ask to see the Men's Fleeced Lined Vests and Pants at 24c, worth 40c. Ask to see our Children's Union Suits for boys and girls at 25c; they are extra values and heavy weight. Our Men's extra heavy Fleeced Drawers and Vests at 39c, worth double the price. We are showing everything in Underwear and you can be suited in price and quality.

Glove on Earth. A reasonable guarantee goes with every pair. We can save you money on all low priced gloves for Ladies Misses and Children, Men's heavy buckskin and knit gloves. Have a Look at our Gloves.

We gladly invite one and all, for an hour's stroll over our new store, being your friends, whether you want to buy or not. There is a well-beaten path that leads to our doors. Throngs of buyers travel it daily. We want you to keep coming, want you to tell your friends and neighbors about the store. Want to serve them as faithfully as we are serving you. Every dollar spent in your home stores adds to advancement of home industries. Our stock is as complete as any city stock. Everything ready to wear, all Novelties in favor this season, are chucked full in every department. Buy your merchandise at home. Buy from us and save time and money.

CLOAKS AND SUITS.

We are like the whimsical trader. We scour the world for merchandise and do not buy until we know that the styles, material and prices are right. We search until we find correct merchandise, then buy. Consumers should do likewise. Make the rounds, if you please, and buy when styles, prices and qualities are right. We are certain you will buy here. We haven't an old coat nor suit in our entire collection. The care we give to these garments is a sufficient guarantee of their excellence. We demand from the maker the best he can produce; we want our money's worth. We admit your right to demand the same and we cheerfully refund your money for every purchase you make if you are not satisfied. Have a look through this department and be convinced.

CLOTHING.
